## **Abstracts**

Global Delivery Takeaway Food Sales Market is valued approximately at USD XXX Billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2021-2027. Delivery takeaway food sales is the delivery of food items at the consumer's doorstep. The delivery takeaway food sales market is expected to grow because of driving factors including hectic lifestyle of consumer and the impact of COVID-19 which restricted the social interaction of people outside due to imposition of lockdown. But challenges such as high cost, concerns related to food quality and hygiene, and delivery time are expected to restrain the market growth. Ordering online food can be expensive than usual because restaurants charge extra for home delivery. Rise of digital technology is giving new opportunities to the way food is delivered. For instance, a tech startups, named Deliverect, has created a central hub between food delivery service provider and restaurants helping the food industry becoming more efficient.

The key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World are considered for the regional analysis of global Delivery Takeaway Food Sales Market. North America dominates the region owing to large presence of online food delivery service companies, and rising demand for customization of food. Asia Pacific is expected to grow with a significant CAGR in the forecasted period because of rising consumption of fast foods, increased usage of e-commerce and technological

developments.
