## Abstracts

Global Dental Crowns and Bridges Market is valued approximately USD 2.42 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 7.37% over the forecast period 2021-2027. Dental crowns are used to cap an individual's injured or decaying tooth or be placed on top of a dental implant as a replacement of missing tooth. Dental implants are metal fixtures, surgically fastened to your jawbone below the gums. Bridges are used to replace the missing teeth. With rising incidences of dental disorders among people, the demand of dental crowns and bridges is growing. With an increase in the population opting for the upgrade of dental aesthetics, coupled with increased consumption of dental disorder causing foods and beverages such as alcohol and cocktails, are driving the Dental Crowns and Bridges market. The elderly population mostly has propagated the growth of this industry with old age-related tooth ailments. According to Global Burden of Disease Study 2017, oral diseases affect approximately 3.5 billion people globally, with caries of permanent teeth being the most common condition among adults. Severe gum disease, which results in tooth loss in severe cases, affects nearly 10% of the global population affected by it. In high-income countries, dental treatment averages 5% of total health expenditure and 20% of out-of-pocket health expenditure. Insurance companies as well as government agencies do not consider dental aesthetic procedures as essential, thus the cost has to be completely incurred by the patient itself. This may act as a restraint for its growth. However, increasing interest in dental tourism globally acts as an opportunity for Dental Crowns and Bridges Market in subsequent decade.

Key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the

World are analysed to provide a holistic picture of Dental Crowns and Bridges Market. Due to greater adoption of dental surgeries as well as higher per capita income, North America emerged as a significant region across the world in terms of market share. Whereas, Asia-Pacific is expected to exhibit highest growth rate for the forecast period 2021-2027 owing to the growing geriatric population. Rising disposable income and growing awareness for importance of dental crowns and implants will also boost growth in this region.

Major market player included in this report are:

Dentsply Sirona Inc.  
Straumann Group  
Danaher Corporation  
Dentium  
Zimmer Biomet  
Henry Schein Inc  
3M Health Care  
Biohorizons Implant Systems, Inc.  
OSSTEM Implant  
Zimmer Biomet

The objective of the study is to define market sizes of different segments & countries in recent years and to forecast the values to the coming eight years. The report is designed to incorporate both qualitative and quantitative aspects of the industry within each of the regions and countries involved in the study. Furthermore, the report also caters the detailed information about the crucial aspects such as driving factors & challenges which will define the future growth of the market. Additionally, the report shall also incorporate available opportunities in micro markets for stakeholders to invest along with the detailed analysis of competitive landscape and product offerings of key players. The detailed segments and sub-segment of the market are explained below:

By Material:

Titanium Implants  
Zirconium Implants

By Price:

Premium  
Value  
Discounted
