Abstracts

Global Dental Mirrors Market is valued at approximately USD 316.2 million in 2022 and is anticipated to grow with a compounded annual growth rate of more than 7.9% over the forecast period 2023-2030. Dental mirrors are an essential tool used by dentists and dental professionals during dental examinations and treatment. They consist of a handle and a mirror head, which is typically made of glass or metal and has a reflective surface on one side. The mirror head is usually circular or oval-shaped and comes in various sizes. However, the growing aesthetics and cosmetics dentistry and growing geriatric population are anticipated to elevate the growth of the Global Dental Mirrors Market.

According to World Health Organization (WHO) in 2022, oral diseases have a significant impact on approximately 3.5 billion individuals globally. This states that 3 out of 4 people are affected living in middle-income countries. Moreover, an estimated 2 billion people worldwide experience dental caries in their permanent teeth while 514 million children suffer from dental caries in their primary teeth. According to the World Health Organization (WHO) in 2020, it was found that there were approximately 3,77,113 new cases of lip and oral cavity cancers, leading to 1,77,757 deaths worldwide. This particular type of cancer is more frequently observed in men and tends to occur more commonly in older individuals. Furthermore, cancer exhibits a higher fatality rate among men compared to women and its occurrence is significantly influenced by social economic factors such as the use of alcohol or tobacco, education and awareness. However, infection control challenges and limited ergonomics may hamper the overall growth of the global dental mirrors market. Moreover, Increasing Availability of Dental services and dental tourism which means travelling to other nation to receive affordable

dental treatment, dental surgery and dental procedures that are expensive there, are some of the emerging growth opportunities for the market.

The key regions considered for the Global Dental Mirrors Market study includes Asia Pacific, North America, Europe, Latin America, and Middle East & Africa. North America dominated the market because of factors such as the high prevalence of oral diseases and well-established healthcare infrastructure in the region. Asia Pacific region emerged as to be the fastest growing region owing to the factors such as growing population and increasing disposable income.
