## **Abstracts**

Global Digital Badges Market to reach USD 291.93 million by 2025.

Global Digital Badges Market valued approximately USD 70.2 million in 2017 is anticipated to grow with a healthy growth rate of more than 19.50 % over the forecast period 2018-2025. The increase in government support will be one of the major factors that will have a positive impact on the growth of the global digital badges market in the education sector during the forecast period. Developed and developing countries have gained increased support for using digital badges in the curricula. For instance, in the US, badges are used as a valuable tool to gain information related to the complete skill set of the student. Additionally, the federal government has also widely promoted the utilization of digital badges in schools and colleges. Furthermore, the government of the UK is also widely focusing on the utilization of open digital badges as a tool to measure the skill set of students. The introduction of competency-based education (CBE) is one of the key trends that will gain traction in the digital badges market in the education sector during the next few years. The CBE method enables personalized learning and the integration of digital badges provides increased assistance in offering flexibility for student's necessities along with maintaining standards for faculty. Since badges are awarded based on certain goals, tasks, and achievements of students, the adoption of digital badging in the CBE model offers teachers a flexible way to recognize the soft skills of the students.

The regional analysis of Global Digital Badges Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is expected to hold the largest market size during the forecast period. Major growth factors for the North American market include increasing adoption of

digital badges driven by their authenticity, a growing demand for specific skills among individuals, increasing collaboration among educational institutions, and rapid technological advancements. Large presence of firms that utilize the digital badge technology would also contribute to the market growth. The digital badges market in APAC is expected to record growth at the fastest rate, as academic institutions and corporate houses in the region have started adopting smart eLearning solutions. Organizations in APAC are trying their best to gain better RoI on talent development, fulfill employee learning requirements, offer proper employee training, and receive quantifiable business outcomes.

The objective of the study is to define market sizes of different segments & countries in recent years and to forecast the values to the coming eight years.
