Abstracts

Global Digital Education Market is valued approximately USD 3.20 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 22.7 % over the forecast period 2020-2027. Digital Education is the invention process of teaching and learning by the means of digital tools and technologies. Presently, the digital education is gaining ground as it uses various interactive and blended approaches such as flipped classrooms, where the online activities are concluded and discussed using a outside practical scenario for depth analysis and face to face interaction with online activities. Also, the digital learning is an instrumental training that ultimately helps students as it makes use of broad range of technology-enhanced educational strategies. It includes flipped learning, blended learning, personalized learning and other strategies that rely on digital tools. The growth of the segment is attributed owing to the increased internet penetration and increased adoption of microlearning. As per the Weare Social Organization in 2019, there are 4.39 billion internet users globally which increased from 366 million i.e. 9% of the previous year 2018. Also, as per the PagBrasil in 2019, more than 10 million people now have access to internet, exhibiting a growth of 7.2 % in comparison to 2018. Thus, with the high usage of internet and mobile and connected devices, need for digital education solutions among the students is observed which

would supplement the growth of the market during the forecast period of 2020-2027. Additionally, the rapid spread of COVID-19 across the globe, various economies announced lockdown due to which students are opting for digital & online medium for taking lectures. Also, technological innovation and advancement adopted in education sector and the rising adoption of digital learning platforms across the globe is expected to drive the growth of market over the forecast years. However, lack of face to face interaction and direct monitoring is hampering the growth of this market. Further, the key players are focusing on strategies such as product launch, innovation and merger & acquisition to sustain themselves amidst fierce competition.

The regional analysis of global Digital Education market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region due to the highest adoption rates of digital education platforms and services. Also, the large-scale investments in outsourced digital education services by universities in North America is expected to create positive outlook for the growth of the region. Whereas Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2027.
