Abstracts

Global Disability Insurance Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028.

Disability Insurance refers to a type of insurance that pays out if an insured person is not able to work due to a permanent or temporary disability. Short-term policies pay benefits for short time duration generally three months, six months, ND one year. Whereas, in case of long-term insurance policy benefits are paid for a longer term, generally two years, five years, 10 years, or to age 65, or for life, based on the underline conditions of a policy. The growing expansion of insurance industry and increasing incidences of work-related injuries as well as strategic initiatives from leading market players are factors that are accelerating the global market demand. For instance, according to International Labor Organization (ILO) estimates- as of 2020, around 2.3 million women and men around the world lost their lives due to work-related accidents or diseases every year, witnessing for around 6000 deaths every day. Further, globally around 340 million occupational accidents and 160 million victims of work-related illnesses occurs annually. Furthermore, leading market players are working towards

strategic initiatives such as joint partnerships to leverage the growing adoption of disability insurance products. For instance, in June 2022, Nebraska, USA based insurtech company Breeze Partnered with US based financial investment management and insurance company Principal Financial Group to Expand Its Online Disability Insurance Platform. Also, growing emergence of digital insurance distribution channels coupled with increasing number of favorable government initiatives are anticipated to act as a catalyzing factor for the market demand during the forecast period. However, a lack of awareness among individuals and slow insurance penetration in developing regions impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Disability Insurance Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to the growing expansion of insurance sector and presence of leading market players in the region. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as the increasing number of favorable government initiatives towards social security of employees as well as increasing penetration of leading insurance providers in the region, would create lucrative growth prospects for the Disability Insurance Market across the Asia Pacific region.
