Abstracts

Global Disposable Lids Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Disposable Lids are placed on the rim of a drinking cup. Lids features a cover portion, drinking access port and a condiment opening, a rim portion for placement of lid. Disposable Lids are widely used in fast food and beverage outlets to serve drinks to the customers. Growing food & beverages industry and rising focus towards recyclable products are key drivers for the growth of Disposable Lids market. For instance, in March 2021, Jubilant FoodWorks (JFL) has partnered with PLK APAC Pte Ltd (a subsidiary of Restaurant Brands International Inc (RBI)) to launch American multinational chain of fried chicken fast food restaurants 'Popeyes'to India. Apart from India, Jubilant Food works would also operate Popeyes restaurants in other Asian countries like Bangladesh, Nepal, and Bhutan in the coming years. Also, In December 2021, Berry Global, US based global manufacturer and marketer of plastic packaging products launched new closure (Lid) for sauces. The closure is manufactured 100% in polypropylene (PP). Also, with the increasing demand from end use industries and increasing penetration of online food delivery segment in emerging economies, the adoption & demand for Disposable Lids is likely to increase the market growth during

the forecast period. However, high cost of research and development and negative impact of covid 19 pandemic on end use industries impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the Global Disposable Lids Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share owing to presence of leading players and growing fast food & beverages industry in the region. Whereas, Asia-Pacific is anticipated to exhibit highest growth rate over the forecast period 2022-2028. Factors such as growing food and beverages industry would create lucrative growth prospects for the Disposable Lids market across Asia-Pacific region.
