Abstracts

Global Disposable Respiratory Masks Market is valued approximately at USD XX billion in 2019 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2020-2026. Disposable respiratory masks cover the mouth and nose to provide short-term, light-duty breathing protection. This mask protects against airborne particles and germs and are commonly worn in healthcare settings. They're available in different filtration ratings to get the desired level of protection. The increase in the number of surgical procedures and rising prevalence of chronic conditions are the few factors responsible for growth of the market over the forecast period. Additionally, the rising COVID-19 pandemic across the world is another factor responsible for the rising demand of this market. For instance, as per Statista, the As of April 20, 2020, the outbreak of the coronavirus disease (COVID-19) had spread to six continents, and approximately 165,082 people had died after contracting the respiratory virus. Around 23,660 of these deaths occurred in Italy, and around 40,565 of these deaths occurred in US. Furthermore, LMAs masks are widely used for cancer procedures such as lumpectomy and quadrantectomy for safety and to reduce the chances of infection. However, replication of original products with fake brand name of reputed medical supply manufacturers is the major factor restraining the growth of global Disposable Respiratory Masks market during the forecast period.

The regional analysis of global Disposable Respiratory Masks market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World.
