## **Abstracts**

Global Domestic Aviation Market is valued approximately at USD XX million in 2020 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2021-2027. Compared to the road, rail, and marine travel, air transport is the fastest mode of transportation. In recent years, the aviation sector has seen significant growth because of the growing need for quicker transportation of perishable pharmaceutical products and also in military transportation. Surge in demand for commercial aircraft across the globe and a rise in military budgets of emerging countries are the factors which are driving the growth of Domestic Aviation Market. The increasing military finances facilitate the acquisition of new military planes with a part of the defense budget. In addition, numerous countries are changing older planes with newer, more advanced planes. As a result, the global Domestic Aviation marketplace is anticipated to develop substantially. For instance: In January 2021, Atlas Air Worldwide Holdings Inc. purchased four new Boeing 747-8 freighter plane, which might also additionally permit the organization to fulfill large client demand in the air transport industry. Such improvements are expected to reinforce the commercial aircraft segment's growth in forecasted period. Furthermore, the rise of travel and tourism sector throughout the globe will be anticipating the growth of market in forecasted period. However, the higher rates of flight tickets as compared to other transportations may impede market growth over the forecast period of 2021-2027.

Global Domestic Aviation Market analysis on basis of region which includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is a dominating region across the world in terms of market size due to the presence of

several commercial airline companies and the highest number of air flights in the region. Whereas Asia-pacific is anticipated to exhibit the highest growth rate over the forecast period 2021-2027, due to improving standard of living and growing per capita income in the region.
