Abstracts

Global Dressing Vinegar & Condiments Market is valued approximately USD XXX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2021-2027. Dressing vinegars and condiments are spices and sauces that are added to food after it has been cooked. It may be used to add flavor to foods in order to improve their taste and complement them. Condiments are commonly utilized as complementary packets with take-away food goods and fast cuisine. Dressing vinegars are liquid concoctions of vinegar, oil, and herbs. Rising consumer desire for natural and organic sauces and dressings, as well as the rising incidences of obesity, are likely to fuel the expansion of the dressing vinegar & condiments market. Furthermore, dressing vinegar contains anti-tumor characteristics that aid in the prevention of tumor development, which is projected to drive the market expansion. Furthermore, the polyphenol molecule found in white vinegar is said to lower the incidence of cancer Which is expected to propel the market. For instance, according to a survey by Organic Trade Association (OTA), in 2019, organic food sales increased by 5.9% and the sale of organic beverages grew by 13.5%. According to World health organization, in 2018, around 18.1 million new cases and 9.5 deaths occurred due to cancer. Whereas, in 2020, around 19.3 million new cases were registered and 10

million people died due to cancer. However, vinegar and condiments have certain negative impacts on human health, and the FDA has strict laws requiring them to follow severe safety and hygiene standards which hinders the growth of the market over the forecast period of 2021-2027. Also, consumers are becoming interested in vinegar-based dietary supplements and rising demand for premium dressings as a result of consumers' willingness to pay money on organic and fresh brands is likely to increase the market growth during the forecast period.

The global dressing vinegar & condiments market is segmented into main regions such as Asia Pacific, North America, Europe, Latin America, and the Rest of the World. Europe is the dominating region across the world in terms of market share attributing to the consumer inclination for organic and naturally derived food goods and increased usage of food dressing items in the region. Whereas, Asia-Pacific is also anticipated to display the highest growth rate over the forecast period 2021-2027. Factors such as rapid growth of food industry, increasing demand for continental food and increasing consumer spending on organic food & beverages would create lucrative growth prospects for the Dressing Vinegar & Condiments market across Asia-Pacific region.
