Abstracts

Global Dulse Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Dulse or palmaria is a type of seaweed. Dulse is reach source of Potassium. Dulse has various health benefits such as it builds bone health, ideal for digestive system, helps in lowering blood pressure, improves vision, and protect the immune system. It is also considered as super food. Growing commercial seaweed market and increasing consumption of vegan food products are key drivers for the growth of Dulse Market. For instance, according to global database management Company Statista- As of 2021, global commercial seaweed market was estimated at approximately USD 15 billion and as per projections by the year 2028, the market is estimated to be worth over USD 25 billion. Also, with the growing demand for plant-based food products and rising disposable income coupled with rapid urbanization, the adoption & demand for Dulse is likely to increase the market growth during the forecast period. However, high cost of seaweed Products and negative impact of pandemic restrictions on end use industries are some of the factors which may impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Dulse Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share owing to presence of leading

market players and growing consumption of plant-based food products in the region. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate over the forecast period 2022-2028. Factors such as availability of low-cost labor and favorable climatic conditions in the region would create lucrative growth prospects for the Dulse Market across Asia-Pacific region.
