## **Abstracts**

Global Egg Steamer Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2029. Egg Steamer is a compact-sized kitchen appliance that cooks eggs through steam. Egg steamer comes with a hot plate attached to its base for steaming of eggs. Furthermore, the eggs are covered with a lid. When the egg steamer is switched on, the hot plate heats up and boils the water, creating steam that cooks the eggs. The increasing expansion of food & beverage sector and growing adoption of energy-efficient kitchen appliances as well as strategic initiatives from leading market players are key drivers accelerating the market growth.

The rising expansion of food & beverages sector is contributing to the growth of the Global Egg Steamer market. For instance, according to Statista – as of 2022, revenue in the global Food & Drink segment is valued at USD 0.74 billion, and the total revenue is expected to show a compounded annual growth rate of 9.11% between 2022-2026, to reach a projected market volume of USD 1.05 bn by 2026. Furthermore, the increasing adoption of energy-efficient household appliances is also driving market growth. For instance, as per Statista - as of 2022, the revenue in the Household Appliances

segment is estimated at USD 252.80 billion, and the revenue is expected to show an annual growth rate of 9.77% in 2022-2025 period, to reach the projected market volume of USD 334.40 billion by 2025. Also, rising growth of working population coupled with growing emergence of online distribution channels would create a lucrative growth prospectus for the market over the forecast period. However, the high cost associated with Egg Steamer, coupled with lack of awareness and penetration of egg steamers in developing countries impede the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Egg Steamer Market study include Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region in terms of global market share owing to presence of leading market players as well as increasing adoption of egg steamers in the region.
