Abstracts

Global Electric Hair Brush Market is valued approximately at USD XX Million in 2020 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2021-2027. Growing trend of maintaining shiny and straightened hair among millennials is fueling demand for electric hairbrush. Growing number of beauty conscious consumers, innovative product offering and growing number of fashion campaigns on social media platforms are injecting growth in the market. In February 2019, Lidl launched a purse-friendly version of their electric hairbrush. The product features a ceramic heat pad adjustable from 120 to 210 degrees. Furthermore, growing sales of fashion products on e-commerce and technological advancements in the product are expected to increase the demand for electric hair brush in the coming years. Such as, according to Statista, fashion e-commerce sales in Spain reached USD 4379 million in 2019 from USD 3508 million in 2018. However, risk of permanent hair loss and substitutes available at low prices are expected to hamper market growth during forecast period.

Europe is the dominating region in terms of revenue among Asia Pacific, North America, Europe, Latin America, and Rest of the World, due to high concentration of salon stores in the region which are fueling demand for hair care products such as electric hair brush. Whereas, Asia Pacific is expected to grow with the highest growth rate during forecast period, owing to rising urbanization and expansion of middle-income groups. Major market player included in this report are:
