Abstracts

Global Employment Screening Services Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2029. Employment Screening Services to process of accessing credibility of information submitted by a candidate seeking job in an organization. Organizations collaborate with employment screening service providers to conduct background verification to access different information including criminal background check, educational certificate verification and family & police verification among others. The increasing hiring rate and stringent compliances from regulatory authorities as well as strategic initiatives from leading market players are key factors accelerating the market growth.

According to Statista – in 2019, the rate of hiring among graduates in India was estimated at 22% and it further increased to 26% in 2020. Moreover, as per the US Bureau of Labor Statics estimates – in September 2022, the total nonfarm payroll employment increased by 263,000 whereas unemployment rate reduced to 3.5 percent from around 5 percent in September 2021. Furthermore, the number of unemployed persons reduced to 5.8 million. Also, growing incidences of fake documents submission to seek employment and increasing penetration of screening service providers in emerging markets. However, lack of penetration from SMEs due to budget constraints

impedes the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Employment Screening Services Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region in terms of market share owing to presence of leading service providers as well as stringent regulations from government authorities in the region. Whereas Asia Pacific is expected to grow significantly during the forecast period, owing to factors such as rising expansion of labor-intensive industries such as retail and healthcare as well as increasing incidences of fake information submission in during job interviews in the region.
