Abstracts

Global Envelope Paper Market is valued approximately USD XXX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XXX% over the forecast period 2021-2027. Envelope papers are mainly used to protect products from the external environment and enable safe transportation. Increasing use in shipping and transportation of parcel deliveries and increasing demand from end-user industries such as e-commerce sector are factors contributing to the market growth. For instance: according to Statista, the number of users in the e-commerce sector, worldwide, is expected to go to 4934.6 million, by the year 2025 from 3537.9 million, in the year 2021. With the rapid increase in the number of users in e-commerce sector, there will be an ultimate increase in the Envelope Paper Market, in the long run. However, availability of substitutes such as electronic mail, fax, voice messages and availability of online mode of payments instead of cash delivery in envelopes impedes the growth of the market over the forecast period of 2021-2027. Also, increasing innovations in the technological developments, increase in the literacy rate and rapid increase in the population is likely to increase the growth of the market in the forecasting period.

The regional analysis of global Envelope Paper market includes Asia Pacific, North America, Europe, Latin America and Rest of the World for analysis and estimation, Asia Pacific is a significant region in terms of largest market share across the world owing to growing population coupled with changes in the government policies to reform education sector. Whereas, North America is anticipated to exhibit the highest growth rate over the forecast period 2021-2027. Factors such as increase in the disposable

income coupled with increase in high standard of living would create lucrative growth prospects for the Envelope Paper market across North American region.
