## **Abstracts**

Global Epoxy Coatings Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Epoxy Coatings or Waterproofing Coating can be defined as a coating compound which comprised of two elements like an epoxy resin and a polyamine hardener (or catalyst). Epoxy floor coatings are largely used in commercial and industrial floorings. Epoxy coating help in protecting concrete and steel from chemical and mechanical attack. It is also used as a bonding agent, a decorative addition, and to create an anti-slip surface. Growing Construction Sector and increasing industrial applications of Epoxy Coatings as well as product innovation from leading market players are key factor driving the growth for Epoxy Coatings Market. For instance, according to Oxford Economics – in 2020, worldwide construction output was estimated at USD 10.7 trillion and as per projection the amount is estimated to reach to USD 15.2 trillion by 2030. Furthermore, In March 2022, Pennsylvania, US based PPG Industries, Inc. launched a new product called PPG AMERLOCK 600 multipurpose epoxy coating. This new coating can dry within 1.5 hours of application and can be overcoated after four hours. Also, growing R&D activities towards new coating development and increasing demand for energy efficient green buildings are anticipated to act as a catalyzing factor for the market demand during the forecast period. However, availability of substitute and negative impact of pandemic on construction sector impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Epoxy Coatings Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to growing number of construction activities and presence of leading market players in the region. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as rising infrastructure development and rapid industrialization in the region, would create lucrative growth prospects for the Epoxy Coatings Market across the Asia Pacific region.
