Global Feminine Care Pouch Film Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2029. Feminine care pouches are very soft, discrete pouch films with vivid print quality and high-quality stacking. It appears in a variety of patterns and vibrant colours. For instance, UNICEF India introduced a programme named Red Dot Challenge in May 2021. Through this initiative, UNICEF collaborated with young women, influencers, and celebrities to encourage sanitation and safety in all facets of life, including menstrual hygiene. However, the high cost of Feminine Care Pouch Film stifles market growth throughout the forecast period of 2022-2029.
