Abstracts

Global Flavored Syrups Market is valued approximately at USD 51.14 Billion in 2020 and is anticipated to grow with a healthy growth rate of more than 5.1% over the forecast period 2021-2027. Flavored syrups are popular among the young population and are used in food products for enhancing taste. The global Flavored Syrups market is being driven by rising product launches with new innovative flavors. For instance, in July 2021, Dabur launched strawberry & chocolate flavored honey syrups for kids. Also, in 2019, Torani launched new puremade line of products consisting of sauces and flavored syrups with no artificial flavors, preservatives or colors. Another important driving factor is the growing demand for convenience food products which include easy consumption food & beverages. According to Statista, Convenience Food market size is expected to increase from USD 433 billion in 2019 to USD 585 billion by 2025. Furthermore, the rising food & beverages industry, increasing demand for food products with fruit flavors & less preservatives and increasing demand for bakery and confectionery products, will create new opportunities for the global Flavored Syrups industry. However, presence of high levels of sugar in the syrups may impede market growth over the forecast period of 2021-2027.

The regional analysis is based on the key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World for the global Flavored Syrups Market. North America is the leading region across the world in terms of market share due to the rise in consumers' preference for flavored syrups in daily meals in the region. Whereas Asia Pacific is anticipated to exhibit the highest CAGR over the forecast period

2021-2027 owing to expansion of confectionary industry, large consumer base, and introduction of new products in the region.
