## **Abstracts**

Global Flexographic Ink Market is valued approximately USD 3.29 billion in 2018 and is anticipated to grow with a healthy growth rate of more than 4.82% over the forecast period 2019-2026. Flexographic Ink is the ink used in the method flexography to print on materials such as plastic bags, tags, labels, cardboard boxes, newspapers, catalogues and food packaging. The flexographic ink market has witnessed a growth in its market size due to the expansion of the packaging industry. Further, these flexographic inks are used in printing of consumer goods, food & beverage, textile, corrugated cardboards, printing paper, plastics and others. Also, the increase in new ink resin technology and rise in demand of UV-curable inks are the factors that are expected to fuel the growth of flexographic ink market. For instance, in 2018, INX International launched AquaTech ION-X ink which can print on most film stocks and on paper. The replacement of solvent based flexographic ink with the water based flexographic ink and the increasing importance of UV-curable ink technology in the packaging industry are the major factors likely to create lucrative growth opportunities to the market in the upcoming years. However, the shift in trend from print media to digital media and stringent print and packaging regulations are few factors anticipated to hinder the growth of global Flexographic Ink market during the forecast period.

The regional analysis of global Flexographic Ink Market is considered for the key

regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Europe is the leading/significant region across the world in terms of market share owing to the growth of various industries such as food & beverage, healthcare, and consumer goods. However, Asia-Pacific is anticipated to exhibit highest growth rate / CAGR over the forecast period 2019-2026. Establishment of facilities by large manufacturers in South Korea, China and India would create lucrative growth opportunities for the Flexographic Ink market across the region.
