## **Abstracts**

Global Food Clamshells Market is valued approximately at USD XXX billion in 2021 and is anticipated to grow with a growth rate of more than 4.5% over the forecast period 2022-2029. Food clamshells are containers that are made up of two halves linked at the hinge, allowing the two pieces to combine to create a closure. These food containers are affordable, resealable, and have gained a significant amount of traction in the packaging industry over the past few decades. The key factor driving the market growth are rising consumption of ready-to-eat foods, rising demand for more convenient packaging solutions and growing ecommerce industry.

However, the rising ready-to-eat food consumption will create lucrative demand of the Food Clamshells for food packaging. For instance, according to Statista, revenue in the Ready-to-Eat Meals segment valued to USD 0.51tn in 2022 and the market is expected to grow annually by 6.39% (CAGR 2022-2027). Also, according to the India Brand Equity Foundation (IBEF), in 2020, the Indian e-commerce valued USD 46.2 billion and is anticipated to reach USD 188 billion by 2025. As a result, rise in e-commerce industry would create the demand for market. Also, rapid expansion of food service industry would create lucrative opportunity for the market during forecast period. However, the availability of substitutes stifles market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Food Clamshells Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the dominating region across the world in terms of market share, owing to the rising demand of packaged food products and growing demand for convenient packaging solutions. Europe is also anticipated to exhibit highest growth rate over the forecast period, owing to factors such as rising demand for ready to eat food products and growing ecommerce industry would create lucrative growth prospects for the global Food Clamshells Market across the Europe region.
