Abstracts

Global Foundation Repair Services Market is valued at approximately USD XX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2021-2027. Foundation Repair Service is a planned repair that includes installing supports under the home and then raising the foundation back to its original position and securing it there. The changing soil conditions and weather conditions, rising residential and commercial construction sectors have led to the adoption of Foundation Repair Services across the forecast period. For Instance: As per the NIP&FA, the FDI in the construction development sector (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activities stood at \$26.08 bn and \$24.72 bn, respectively, between April 2000 and March 2021. Also, with the increasing population and urbanization, the adoption & demand for Foundation Repair Services is likely to increase the market growth during the forecast period. However, requirement of skilled professionals impedes the growth of the market over the forecast period of 2021-2027.

The key regions considered for the global Foundation Repair Services market study include Asia Pacific, North America, Europe, Latin America and Rest of the World. Europe is the leading region across the world in terms of market share owing to the rapidly growing construction industry in emerging economies. Whereas, Asia-Pacific is also anticipated to exhibit the highest growth rate over the forecast period 2021-2027. Factors such as ongoing infrastructural developments in developing countries such as China and India would create lucrative growth prospects for the Foundation Repair

Services market across Asia-Pacific region.
