## **Abstracts**

Global Functional Flours Probe Market to reach USD 91.22 billion by 2025.

Global Functional Flours Probe Market valued approximately USD 48.22 billion in 2016 is forecasted to grow with a healthy growth rate of more than 7.34% over the forecast period 2018-2025. The major factors speculated to augment the markets are increasing trade of the functional flour and escalating consumer spending along with the beneficial government ordinances imposed in order to encourage the consumption of healthy products. Functional Flours are defined as those special type of products which are hydro-thermally treated for a diversity of applications in the food & beverages industry. The functional flours are treated and manufactured to have improved nutrient qualities with health-related benefits.

The regional analysis of Global Functional Flours Probe Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Europe and North American regions are the leading region across the world in terms of market share. Whereas, owing to countries viz. India, Indonesia, China, and Japan, the Asia Pacific region is expected to exhibit higher growth rate / CAGR over the

forecast period 2018-2025.

The objective of the study is to define market sizes of different segments & countries in recent years and to forecast the values to the coming eight years. The report is designed to incorporate both qualitative and quantitative aspects of the industry within each of the regions and countries involved in the study. Furthermore, the report also caters the detailed information about the crucial aspects such as driving factors & challenges which will define the future growth of the market. Additionally, the report shall also incorporate available opportunities in micro markets for stakeholders to invest along with the detailed analysis of competitive landscape and product offerings of key players. The detailed segments and sub-segment of the market are explained below:

#### By Raw Material:

Soy

Wheat

Rice

Maize

Beans

Others

#### By Type:

Specialty Flour

Pre-cooked Flour

#### By Product:

Additive Based Flour

Conventional Flour

## Genetically Modified Flour

### By Application:

Bakery Products
