Global Gelatin market is valued approximately at USD 2.60 billion in 2018 and is anticipated to grow with a growth rate of more than 6.40% over the forecast period 2019-2026. Gelatin is colorless, translucent, flavorless food ingredients that is derived from collagen, taken from animal body parts. Its texture is gummy when it is moist and brittle when it is dry. Rising demand for the functional and convenience food & beverage products, growing application in the pharmaceutical industries, increase in demand of clean-label products and rise in demand for naturally sourced ingredients are the factors driving the growth of market over the forecast years. However, emerging economies to provide high-growth opportunity and use of gelatin in fortified confectionery and sports nutrition products is lucrative opportunity for the growth of market.

The regional analysis of global Gelatin market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World.
