Global Glass Fiber Reinforced Concrete (GFRC) Market is valued approximately USD 2.19 Billion in 2019 and is anticipated to grow with a healthy growth rate of more than 10.5% over the forecast period 2020-2027. Glass fiber reinforced concrete is a specialized type of concrete that is combined with glass fibers. This form of concrete is effectively utilized in developing exterior facade wall panels, vanity tops, fire surrounds and concrete countertops. Glass fiber reinforced concrete can be produced either with the aid of extrusion or by using injection-moulded manner. The glass fiber reinforced concrete market is expected to limit over the forthcoming period due to the global spread of coronavirus. As many economies face down fall in their growth & Gross domestic products which leads to the lessening of disposable income of people, thereby many renovation & construction activities were restrained. Whereas, the rise in construction activity across the globe and commendable role of glass fiber reinforced concrete in renovation of building, water & drainage works, bridge and tunnels due to its unique properties and tensile strength. For instance: as per the National Investment Promotion & Facilitation Agency, the construction industry in India is expected to increase with 5.6% during 2016-20 as compared to 2.9% during 2011-2015. Similarly, construction sector in Germany increased to over USD 571.51 billion in 2016 with 36.4% from over USD 427.84 billion in 2010. In addition, upsurge in demand for corrosion-resistant materials is the factor propelling the growth of market over the forecast years. However, economic downturn in major regions across the globe is the

factor hampering the growth of market over the forecast years.

The regional analysis of global Glass Fiber Reinforced Concrete (GFRC) Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to the upsurge in demand for corrosion-resistant materials. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2027. Factors such as rise in construction activities in the region would create lucrative growth prospects for the Glass Fiber Reinforced Concrete (GFRC) Market across Asia-Pacific region.
