Abstracts

Global Glass Manufacturing Market is valued at approximately USD 120.3 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 3.7 % over the forecast period 2021-2027. Glass Manufacturing includes container glass, flat glass, and fiber glass. It is used in packaging, construction and transportation. The increasing usage of recycled products has led to the adoption of Glass Manufacturing across the forecast period. For Instance: according to the UN Environment Programme in 2020, increasing material efficiency and usage of electronic appliances is the major threat to the environment by causing greenhouse effect and ozone layer depletion. Globally various programs and schemes are implemented to minimize the usage of such products by enhancing the adoption of recycled and sustainable materials. In G7 it is estimated that material efficiency strategies that include the use of recycled materials would reduce greenhouse emission by 80 to 100 percent by 2050. Shifting consumers' paradigm towards sustainable products enhances the market growth of glass manufacturing. Also, with the stringent government laws towards eco-friendly products., the adoption & demand for Glass Manufacturing is likely to increase the market growth during the forecast period. However, threat of substitutes impedes the growth of the market over the forecast period of 2021-2027.

The geographical regions considered for the global Glass Manufacturing market analysis includes Asia Pacific, North America, Europe, Latin America and Rest of the

World. Asia Pacific is deemed as the significant region across the globe in terms of huge market share due to the presence of skilled labor at low cost and increasing awareness towards the usage of recycled products. Whereas, North America is also estimated to attain a maximum growth rate during 2021-2027. Factors such as prohibition towards plastic usage, increasing demand for smart glasses would create beneficial growth forecasts for the Glass Manufacturing market across North America region.
