Global Graphene Nanocomposites Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Graphene Nanocomposites are produced by chemical treatment of graphite through oxidation (process in which a chemical substance change because of the addition of oxygen). Graphene and its derivatives such as graphene oxide (GO) and reduced GO (rGO) features excellent electrical, mechanical, and electrochemical properties. Graphene Nanocomposites are used across industries such as building & construction, electrical & electronics, automotive, aerospace, biomedical, among others. Growing electronics industry and rising adoption in Water Treatment application are key drivers for the growth of Graphene Nanocomposites market. For instance, according to global database Management company Statista- As of 2022, revenue in the Consumer Electronics market estimated at USD 1.05 trillion and the market is expected to grow annually by 1.82% from 2022 to 2026 and would reach to USD 1.13 trillion. Furthermore, In December 2019, Perpetuus Advanced Materials PLC has partnered with XG Sciences Inc. to supply graphene to North American tire manufacturers. Furthermore, in December 2021, Nanoxplore, Inc. has acquired Canuck Compounds Inc. for a total cash consideration of USD 9.3 million. Also, with growing R&D activities in electronics industry and rising penetration of Smart Drug Delivery systems, the adoption & demand for Graphene Nanocomposites is likely to increase the

market growth during the forecast period. However, high manufacturing cost of Graphene Nanocomposites and Presence of patent protection impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the Global Graphene Nanocomposites Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share owing to presence of leading market players and rising medical and bio-medical sector in the region. Whereas, Asia-Pacific is anticipated to exhibit highest growth rate over the forecast period 2022-2028.
