Abstracts

Global Halal and Kosher Empty Capsules Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2029. Halal and kosher empty capsules are certified as halal and kosher. These non-GMO and gluten-free capsules are made from hydroxypropylmethylcellulose and purified water. Some of the capsules that have already received halal and kosher certification are Vcaps Plus and Plantacaps. The increasing vegetarian and vegan population and surge in religious population that strictly follows halal and kosher are key factors driving the market growth.

Over the years the number of vegan individuals has significantly increased creating strong demand for Global Halal and Kosher Market. For instance – as per Statista – in 2021, the global vegan food market was valued at USD 15.77 billion, and the market is projected to grow to USD 22.27 billion by 2025. Also, rise in adoption of vitamins, minerals, and dietary supplements and growing geriatric population would create lucrative growth opportunities for the market over the projected period. However, high cost of Halal and Kosher Empty Capsules hinders the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Halal and Kosher Empty Capsules Market study include Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America dominated the market in terms of revenue, owing to the dominance of branded products and the increasing trend of veganism in the region.

Whereas Asia Pacific is expected to grow with the highest CAGR during the forecast period, owing to factors such as rising geriatric and target populations, as well as increasing penetration of leading market players in the region.

Major market players included in this report are:

Lonza Group

Health Caps India Ltd.

Qualicaps Llc.

Acg- Associated Capsules
