Abstracts

Global Hang Tags Market is valued approximately XXX billion in 2020 and is anticipated to grow with a healthy growth rate of more than 11.1 % over the forecast period 2021-2027. Hangs Tags are used to communicate the information about the product to the consumers. These are small little tags that are attached along with the product so that the user knows the important information like price, material, instructions on how to use etc. People are shifting towards increased use of hang tags for conveying the product information. The introduction of hand tags as a branding tool is boosting the growth. In addition to this, the availability of customization and designs in hang tags has also resulted in rapid growth. The expansion of retail sector has also contributed to the growth of hang tags. Traditionally, hang tags where used by garments and clothing industry. But, some of the food and beverages brand have also started the use of hang tags for product identification, authentication and branding. This is driven by rising expenditure on food & beverage consumption and inclination towards packaged food and beverage items. Hang tag gives an opportunity to attract consumer attention and establish brand name. However, Alternatives to hang tags such as pressure-sensitive labels, QR code stickers, and others are giving a tough competition to hang tags and

thus restraining its growth. But, customization in the hang tags is a good opportunity for the sector to flourish. Brand owners directly contact the hang tags manufacturers for required customization.
