## **Abstracts**

Global Healthcare Smart Beds Market is valued approximately at USD 411.2 Million in 2020 and is anticipated to grow with a healthy growth rate of more than 7.6% over the forecast period 2021-2027. Healthcare Smart Beds are the beds with a remote monitoring system to keep the track of the patient through beds containing sensors for body temperature, heartbeat, blood, oxygen and others. They provide enable effective patient monitoring and effective delivery of care along with collecting electronic medical records of the patients. The global Healthcare Smart Beds market is being driven by the rising number of new product launches, increasing prevalence of chronic diseases and the rising number of surgeries. Furthermore, technology upgradation and the integration of artificial intelligence provides information by patient monitoring and their physicians about health activities of their patients, which will boost new opportunities for the global Healthcare Smart Beds industry. For instance, in 2020, Stryker launched a wireless smart hospital bed ProCuity to improve efficiency and safety. Also, in 2021, Digital health company Zyter launched a new tool for healthcare technology to deploy large facilities into a single unified 5G-ready smart platform, called Zyter Smart Hospitals. However, high costs of advanced technology beds and low health budgets set by the governments in the underdeveloped countries may impede market growth over the forecast period of 2021-2027.

The global Healthcare Smart Beds Market is analyzed considering for the key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share due to adoption of artificial intelligence and promptness & affordability of health monitoring

services coupled with the well-established healthcare infrastructure which has stimulated product demand in the region. Whereas Asia Pacific is anticipated to exhibit the highest CAGR over the forecast period 2021-2027, due to the rising disposable income and rising incidences of disease in the region.
