Abstracts

Global Hemodialysis Vascular Grafts Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2029. Hemodialysis Vascular Grafts is used as surgical vein which is used to remove or return blood during hemodialysis. The Hemodialysis Vascular Grafts Market is expanding because of factors such as rising prevalence of chronic kidney disease, rising prevalence of renal diseases. However, high cost of hemodialysis vascular graft may halt market growth.

According to a report of the United States Renal Data System (USRDS), as of the year 2021, around 786,000 people in the U.S. are suffering from End-stage kidney disease (ESKD), and this number is projected to reach 886,000 by the year 2030. Thus, rising prevalence of chronic kidney disease is catering to the adoption of hemodialysis vascular grafts. Furthermore, due to several conditions, including hypertension, diabetes, and cardiovascular disease, the chance of getting renal disease also rises as people age. The globe Bank Group estimates that there were 727 million elderly people in the globe in 2020, and that number will triple over the following three decades to reach 1.5 billion by year 2050. Thus rising geriatric population across the globe is

catering to market growth. In addition, rising technological advancement is creating lucrative growth in the market.

The key regions considered for the Global Hemodialysis Vascular Grafts Market study include Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America dominated the market in terms of revenue, owing to the dominance of branded products and the region's increasing disease prevalence. Whereas Asia Pacific is expected to grow with the highest CAGR during the forecast period, owing to factors such as rising geriatric and target populations, an increase in the number of product development activities, geographic expansion of key players, and active participation of government and nonprofit organizations in the market space.
