## **Abstracts**

Global High Pressure Washer Market is valued approximately at USD 1.92 Billion in 2020 and is anticipated to grow with a healthy growth rate of more than 3.4% over the forecast period 2021-2027. The high pressure washers are used to remove loose paint, mold, grim, dust, mud, chewing gum and dirt from Concrete surfaces, vehicles and buildings. The rising demand for equipment to remove dirt and grease from metals, woods and concrete is fueling the market size because the washer is used to prepare surfaces before final coating or varnishing. Also, high pressure reduces the manual effort and enhances cleaning efficiency and accesses the areas which are difficult to reach such as cracks, corners and overhangs is driving the market growth. However, noise emission by the pressure washers is restraining the market and also availability of alternative cleaning methods such as sandblasting and foam-based cleaning industrial applications will restrain the market. Increasing awareness regarding water preservation will give opportunities to the market in the coming years because the pressure is more efficient and consumes less water as compared to standard garden hose. According to the Maryland Department of Environment, a pressure washer consumes only 2-5 gallons of water per minute as compared to the standard garden hose which consumes

10 gallons per minute. Also, government initiatives spreading awareness regarding water conservation is expected to increase the market in the forecasted period.

The key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World are considered for the regional analysis of global High Pressure Washer market. North America is the leader in the market with 35% share in 2018 and will grow with a significant CAGR in the forecasted period. US is the major contributor to the region because of high usage of different types of pressure washer for various purposes such as car washing, grill washing and patio washing and high spending power of the consumer group are driving the market in the region.
