Abstracts

Global Home Rehabilitation Products & Services Market is valued approximately USD 99.60 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 6.50 % over the forecast period 2020-2027. Home rehabilitation product and services is used to improve and regain neurocognitive function that has been diminished or lost. Also, the rehabilitation programs help patients to maintain, improve and restore physical strength and motion in home care settings. It also helps people suffering from disabilities by maintaining, improving and restoring physical motion and strength. In addition, home rehabilitation products and services are widely used for physical therapy, care management and occupational therapy and also it is used in manipulative treatment such as spinal and chiropractic recreational therapy and speech language therapy. Also, the key players are focusing on strategies such as product launch, innovation and merger & acquisition to sustain themselves amidst fierce competition. Increase in prevalence of chronic diseases along with the increasing geriatric population would drive the growth of the market during the forecast period of 2020-2027. According to the Center for Managing Chronic Disease, University of Michigan, Chronic disease (e.g. diabetes, heart disease, respiratory disorders) affects approximately 50% of all adults in the U.S., accounts for 86% of the USD 3.2 trillion the U.S. spends on healthcare, and represents 7 of the 10 leading causes of death. As a result, the demand and need for home rehabilitation products and services would increase as this approach is preferred to provide best-fit alternate solutions for treating and managing these

ailments. However, rampantly rising product & service costs, poor compensation policies, and unfavorable regulations governing healthcare insurance policies in most of the developing economies is hampering the growth of the market during the forecast period of 2020-2027.

The regional analysis of global Home Rehabilitation Products & Services market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region due to the well-established healthcare infrastructure and escalating number of cardiovascular ailments witnessed across the countries such as the Canada and U.S. Also, the dominance of the region is witnessed owing to the easy access to advanced healthcare facilities along with the increase in occurrence of chronic disorders. Whereas Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2027.
