Abstracts

Global Hospital Bedsheet & Pillow Cover Market is valued approximately USD XX million in 2020 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2021-2027. The main factor driving market expansion is the rising number of operations and hospitalizations. Furthermore, the growing occurrence of nosocomial infections such as bloodstream, urinary tract, surgical site infections, and pneumonia would propel the market forward throughout the projected period. According to the Centers for Disease Control and Prevention (CDC), HAIs cause about 1.7 million illnesses and 99,000 deaths each year in American hospitals. Urinary Tract Infections (UTIs) account for 32% of these infections, Surgical Site Infections (SSIs) account for 22%, pneumonia (lung infections) accounts for 15%, and bloodstream infections account for 14%. As the number of nosocomial illnesses rises, so will the demand for preventative treatments, raising the demand for hospital pillow coverings and bedsheets. Furthermore, the number of hospital admissions is growing at a rapid rate. In 2021, According to the American Hospital Association, total hospital admissions in the United States were 36,241,815. As the number of admissions rises, so will product demand, fueling market expansion in the United States. One of the primary reasons driving the market's growth is the growing need for maintenance and hygiene in healthcare facilities. A number of hospitals and healthcare facilities are putting a lot of effort into improving infrastructure and hygiene, as well as the efficacy and upkeep of operational systems. However, increasing adoption of home care services hinders the market in forecasting years.

The main regions of Asia Pacific, North America, Europe, Latin America, and the Rest of the World are included in the geographical analysis of the worldwide Hospital Bedsheet & Pillow Cover market. With significant revenue in 2020, Asia Pacific led the worldwide market. Due to an increase in the number of operations and the rising incidence of chronic illnesses, the area is expected to grow at a high CAGR during the projection period. Some of the reasons expected to boost the market include increased healthcare infrastructure development in this area and growing awareness about patient safety and cleanliness requirements. Furthermore, the fast-expanding medical tourism sector in APAC might be linked to the rise in product demand. Over the projected period, the market in MEA is expected to grow at the fastest rate.
