## **Abstracts**

Global Hospital Furniture Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. The hospital furniture is widely used in hospitals and the healthcare centers. The hospital furniture includes stretcher trolleys, hospital bed, bed side table, operating table, blood donor chair and many more, fulfilling the need of the patients and caregivers. This are designed with the assistance of advance technology which meets the requirement of patients. The growing prevalence of geriatric population has led the adoption of Hospital Furniture across the forecast period. For Instance: as per the United Nations, in 2020, the share of aged population globally is 9.3 per cent of total population and is expected to rise up to 16 per cent by 2050. Also, with the increasing infrastructure and technological development, the adoption & demand for Hospital Furniture is likely to increase the market growth during the forecast period. However, lack of comfort of the hospital furniture impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the Global Hospital Furniture Market study includes Asia

Pacific, North America, Europe, Latin America and Rest of the World. Europe is the significant region across the world in terms of market share owing to the strong presence of healthcare industry in the region and the investment sector is also growing which leads to the adoption of hospital furniture market in the Europe region. Whereas, Asia-Pacific is anticipated to exhibit highest growth rate over the forecast period 2022-2028. Factors such as growing infrastructural development in the healthcare sector and high government support on the infrastructure development would create lucrative growth prospects for the Hospital Furniture market across Asia-Pacific region.
