Abstracts

Global Industrial Cleaning Services Market is valued approximately at USD XX billion in 2019 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2020-2026. Industrial cleanings are liquid cleaning chemicals that are used during routine cleaning of warehouses, offices, institutes, research and development laboratories, and industrial facilities and other such places. Raw materials such as solvents, chelating agents, and surfactants are used in various cleaning applications. Industrial cleaning is used in various application for cleaning such as food processing, retail & food service, manufacturing & commercial offices, healthcare, hospitality, automotive & aerospace, and others. The increase in disposable income and organizations' regularity of cleaning for hygienic and safe environment are the few factors responsible for growth of the market over the forecast period. Furthermore, the introduction of new products and services as well as other strategic alliances by market key player will create a lucrative demand for this market. For instance: as per Company's news release in January 2020, Evonik launched 'intoCleaning', a new online customer platform. intoCleaning is a tool that allows customer to quickly examine chemistry solutions meeting a variety of application, registration, and use criteria. However, Government & Environmental Regulations is the major factor restraining the growth of global Industrial Cleaning Services market during the forecast period.

The regional analysis of global Industrial Cleaning Services market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Asia Pacific is the leading/significant region across the world. Whereas, Asia-
