Global Industrial Tapes Market is valued at approximately USD 61.82 Billion in 2021

Global Industrial Tapes Market Size study, By Product Type (Filament Tapes, Aluminum Tapes, Duct Tapes, Adhesi...

and is anticipated to grow with a healthy growth rate of more than 6.2% over the forecast period 2022-2028.

Industrial Tapes offer a high level of adhesive strength that is associated with the normal tapes which are used in everyday life. It is used for adhesive bonding, electrical insulation, masking, ESD control, thread sealing, packaging, wrapping, and further specialized applications. It comprises both adhesive tapes, non-adhesive tapes, and special purpose tapes. Industrial tapes are majorly adopted for attaching various substances like cushions, foams, and lighting fixtures. Also, bonding processes such as concrete bonding, glass bonding, and floor bonding are also performed through the help of industrial tapes. The growing adoption of the industrial tapes for manufacturing and assembly of commodities and appliances, coupled with the potential growth of the automobile, electronic, and construction sectors are propelling the market demand across the globe. For instance, according to the European Construction Industry Federation (FIEC) in 2017, the construction activity is grown approximately 2.2% in 2016 and it is anticipated to grow by 3% in 2018. However, high emissions of volatile organic content in manufacturing impede the growth of the market over the forecast period of 2022-2028. Also, new product launches and R&D by the leading market players are anticipated to act as a catalyzing factor for the market demand during the forecast period.

The key regions considered for the Global Industrial Tapes Market study includes Asia Pacific, North America, Europe, Latin America and the Rest of the World. Asia-Pacific is the leading region across the world in terms of market share owing to the availability of low-cost resources, growing demand from the automotive, construction, electronic, and manufacturing industry. Whereas, North America is anticipated to exhibit a moderate growth rate over the forecast period 2022-2028. Factors such as growing penetration of the advanced material technology, as well as the presence of the leading market players, would create lucrative growth prospects for the Industrial Tapes market across the region.
