## **Abstracts**

Global Inhaled and Intranasal Products Contract Service Providers Market is valued at approximately USD 2.21 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 8.5% over the forecast period 2022-2029. Inhaled and intranasal products is a specially designed medical device that is used for the prevention of asthma and the management of allergy, hayfever, and some nasal conditions. The contract service providers are contract regulates relations in the rendering of professional services between a party which offers the specified service and another the recipient thereof in exchange for a payment. The growing awareness of the effective and advanced respiratory devices, increase in geriatric population, and ease of regulatory compliance are the primary factors that are attributing towards the market demand across the globe.

The increasing incidences of chronic respiratory diseases is acting as a catalyzing factor for the growth of the market. The World Health Organization (WHO) reported that the respiratory disease infections as the third leading cause of mortality, which is accounting for around 3 million deaths year (or 6% of all fatalities worldwide), with nearly 90% of COPD fatalities occurring in individuals over 70 from low- and middle-

income nations. Also, there are around 262 million patients were estimated to suffer from asthma, which commonly affects children. Thus, these aforementioned factors are directly associated growth of the inhaled and intranasal products contract service providers. Moreover, rising investment in the development of advanced technology, as well as the rising launch of the latest technology-based nebulizers are presenting various lucrative opportunities over the forecasting years. However, stringent government regulations for the product approval are a restricting the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Inhaled and Intranasal Products Contract Service Providers Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. The Asia Pacific dominated the market in terms of revenue, owing to the increasing incidences of respiratory disorder, along with the rising government initiatives and implementation of several policies. Whereas, North America is expected to grow with the highest CAGR during the forecast period, owing to factors such as the favorable reimbursement scenario, as well as presence of a large number of contract manufacturers in the market space.
