Abstracts

Global Janitorial Service Market is valued approximately at USD 260.63 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 3.1% over the forecast period 2021-2027. Janitorial services refers to cleaning services provided to professional, educational, medical and industrial spaces which includes maintenance or property management services. Growing trend of co-working spaces are proving fruitful for janitorial service market. Strategic moves taken by market players, growing number of commercial spaces and outsourcing of cleaning services are providing boost in the market. For instance, in February 2018, Coverall North America, Inc., acquired Orlando-based 4444 International, Inc., to expand its footprint in Orlando, where there is large concentration of business spaces. Furthermore, rising concern for health and hygiene for employees and introduction of advance cleaning equipment are expected to fuel the demand in the market. However, being a labor intensive industry, selection of unskilled workers may hamper the growth during forecast period.

Among Asia Pacific, North America, Europe, Latin America, and Rest of the World, North America is the leading region across the world in terms of market share owing to higher adoption of janitorial services in the region because of presence of lot of international companies. Asia Pacific is anticipated to grow with the highest growth rate during the forecast period due to growing trend of co-working spaces and rising construction of commercial buildings.
