Abstracts

Global Landscaping Products Market is valued at approximately USD 70.64 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 5.4% over the forecast period 2022-2028. Landscape products are a classification of construction materials used by garden developers and landscape architects. Thus, increasing global population and increasing real estate businesses are factors contributing to the market growth. For instance: according to Statista, the growth rate of the real estate sector went to 11.2%, in the year 2020 from 10%, in the year 2015. However, lack of skilled Professionals impedes the growth of the market over the forecast period of 2022-2028. Also, increasing disposable levels and increasing number of cafes and restaurants are likely to increase the growth of the market in the forecasting period.

The regional analysis of global Landscaping Products market includes Asia Pacific, North America, Europe, Latin America and Rest of the World for analysis and estimation. North America is the leading region across the world in terms of market share owing to increasing house and garden parties. Whereas, Asia-Pacific is also anticipated to exhibit the highest growth rate over the forecast period 2022-2028. Factors such as increasing disposable income would create lucrative growth prospects for the Landscaping Products market across Asia-Pacific region.

Major market players included in this report are:

Pavestone Company LLC
