Abstracts

Global Lip Augmentation Market is valued at approximately USD 6.4 billion in 2022 and is anticipated to grow with a healthy growth rate of more than 7.8% over the forecast period 2023-2030. Lip augmentation is a cosmetic procedure that aims to enhance the size and shape of the lips, creating a fuller and more attractive appearance. The procedure is typically done to make the lips appear plumper, more defined, and symmetrical. The Lip Augmentation market is expanding because of factors such as growth of medical tourism, increasing number of cosmetic surgeries, and growing gaining population across the world.

Increasing number of cosmetics surgeries performed across the globe is driving the market growth. Reduced stigma around cosmetic enhancements has contributed to an increase in demand for lip augmentation and other aesthetic treatments. In year 2023, a survey released by The International Society of Aesthetic Plastic Surgery (ISAPS) states that in the volume of cosmetic surgeries performed in year 2021 reached at 30.3 million surgeries which indicates the rise of 19.3% from the previous year 2020. The International Society of Aesthetic Plastic Surgery reported that 33,750 instances of perioral or surgical lip augmentation were recorded in the United States in 2021. These, rising cosmetic surgeries indicated that there has been rise in number of lip surgeries, resulting in market growth. In addition, rising demand for non-invasive procedures, innovation in techniques and influence of social media and celebrity culture are some of the factors creating new opportunities for market growth. However, lack of reimbursement policies and low awareness stifles market growth throughout the

forecast period of 2023-2030.

The key regions considered for the Global Lip Augmentation Market study includes Asia Pacific, North America, Europe, Latin America, and Middle East & Africa. North America dominated the market in 2022 owing to factors such as rising number of cosmetic surgeries, availability of advance healthcare technology, rising stringent regulatory environment, presence of key market players, and rising healthcare expenditure in the region. Whereas, Asia Pacific is projected to registered significant growth owing to factors such as rising medical tourism, rising demand for aesthetics surgery, rising patient awareness in the region.

Recent Developments in the Market:

In May 2020, Galderma, a leading pharmaceutical company, has received approval from the U.S. Food and Drug Administration (FDA) for their innovative product, Restylane® Kysse. This hyaluronic acid (HA) filler is specifically designed for lip augmentation and the correction of upper perioral rhytids,

commonly known as wrinkles around the upper lips, in adults aged 21 and above. Restylane Kysse is the first lip filler to utilize XpresHAn Technology™ (also known as OBT technology, which stands for Optimal Balance Technology) for lip enhancements. It has demonstrated impressive results, with a proven longevity of up to one year and high levels of patient satisfaction. This groundbreaking approval marks a significant advancement in the field of lip augmentation and aesthetic treatments.

In January 2020, Revance Therapeutics Inc. has unveiled its latest innovation, the RHA dermal filler line, which has received approval from the FDA as the first and only product of its kind to effectively correct wrinkles and acne on the skin. This groundbreaking technology marks a significant advancement in the field of dermal fillers and aesthetic treatments. With this pioneering development, Revance Therapeutics aims to revolutionize the market and set a new standard in skin rejuvenation and lip treatment.
