## **Abstracts**

Global Louvre Windows Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. The Louvre Windows can be defined as window type comprised of parallel and horizontally arranged blades, laths, slips of wood, glass, and metal. These blades are fixed at an angle to allow air and light to pass through while preventing rain and direct sunlight from entering the building. The growing residential construction spending worldwide and increasing technological advancements in louvre window products as well as strategic initiatives from leading market players are factors that are accelerating the global market demand. For instance, according to Statista- during 2020, the value of new constructions put in place in the United States were valued at USD 1500 billion, and it is projected to grow to USD 2000 billion by 2025. Furthermore, leading market players are working towards strategic initiatives such as partnership to capitalize the growing adoption of Louvre Windows. For instance, in December 2019 – Australia based Safetyline Jalousie louvre windows announced partnership with leading Australian distributor of aluminium, Darley Aluminium. Under this partnership, Darley Aluminium would be working as official distributor for Safetyline Jalousie louvre windows across Australia. Also, rapid urbanization in emerging markets and rising government backed investment towards infrastructure development are anticipated to act as a catalyzing factor for the market demand during the forecast period. However, availability

of alternatives coupled with volatile cost of raw materials impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Louvre Windows Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to the growing residential construction sector and presence of leading market players. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as rapid urbanization and increasing penetration of leading market players in the region, would create lucrative growth prospects for the global Louvre Windows Market across the Asia Pacific region.

Major market players included in this report are:

G. James

Premium Aluminum Ltd.

Window Expert Industries Private Limited

Encraft

Safety line Jalousie

Breezway Australia Pty Ltd

B&W Windows Group

G. JAMES PTY. LTD

DURALCO

Optima Window

The objective of the study is to define market sizes of different segments & countries in recent years and to forecast the values to the coming eight years. The report is designed to incorporate both qualitative and quantitative aspects of the industry within each of the regions and countries involved in the study. Furthermore, the report also caters the detailed information about the crucial aspects such as driving factors & challenges which will define the future growth of the market. Additionally, the report shall also incorporate available opportunities in micro markets for stakeholders to invest along with the detailed analysis of competitive landscape and product offerings of key players. The detailed segments and sub-segment of the market are explained below:

By Material Type

Wood

Glass

Metal

Others

By Louvre Type

Stationary  
Adjustable  
By Operation Type  
Manual  
Motorized  
Automatic  
By End Use Industry  
Residential & Commercial Buildings
