Abstracts

Global Mailer Boxes Market is valued at approximately USD 3.4 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 7.0% over the forecast period 2022-2029. Mailer boxes are paper packaging solutions intended for the storage and transport of goods. These boxes are simple to assemble and close owing to their interlocking flaps and wings. Paper and paperboard are primarily used to make these packaging boxes. Compared to shipping boxes, they are more durable, less expensive, and require a significant proportion of paper and adhesive. They are more environmentally friendly than shipping boxes and other packing options as a result. The key factor driving the market growth is the rising e-commerce industry and the growing demand for sustainable packaging solution. Thus, driving the market growth of Mailer Boxes during the forecast period.

According to the 2021 Global Buying Green Report, more than half of respondents (54%) consider sustainable packaging when choosing a product, and younger consumers (aged 44 and below) are the ones who are driving this trend. Compared to 70% of customers overall, 83% of people in that age group say they are willing to pay more for products that have been packaged sustainably. and according to the India Brand Equity Foundation (IBEF), in 2020, Indian e-commerce was valued at USD 46.2 billion and is anticipated to reach USD 188 billion by 2025. As a result, the rise in E-commerce will create lucrative demand for mailer boxes for packaging products. Also, growing awareness about eco-friendly packaging solutions is likely to increase the market growth during the forecast period. However, the availability of substitutes stifles

market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Mailer Boxes Market study includes Asia Pacific, North America, Europe, Latin America, and the Rest of the World. The Asia Pacific is the dominating region across the world in terms of market share, owing to the rising e-commerce industry and growing demand in the food and beverages industry. Whereas, North America is also anticipated to exhibit highest growth rate over the forecast period, owing to factors such as rising demand for sustainable packaging solutions and growing demand in various end-use industries that would create lucrative growth prospects for the global Mailer Boxes Market across the North America region.

Major market players included in this report are:

Smurfit Kappa Group PLC

PakFactory

VSL Packaging Company USA

GWP Group

Shanghai DE Printed Box
