Abstracts

Global Maize Seed Market is valued at approximately USD XXX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XXX% over the forecast period 2022-2028. The market for Maize seeds will witness an upward growth because it is the most traded feed crop and is known to have an important food crop in the market. Thus, increasing demand for maize, worldwide and the growing world population are factors contributing to the market growth. For instance: according to the United Nations Org, the global population is expected to go from 9.7 billion in the year 2050 to 11 billion, in the year 2100. However, increasing prevalence of biotic and abiotic pests impedes the growth of the market over the forecast period of 2022-2028. Also, ongoing innovations in the Maize Seed Market and rising disposable income in the hands of common man are likely to increase the growth of the market in the forecasting period.

The regional analysis of the global Maize Seed market includes Asia Pacific, North America, Europe, Latin America and Rest of the World for analysis and estimation. North America is the leading region across the world in terms of market share owing to rising production of harvested crops in the region.
