## **Abstracts**

Global Managed VPN Market to reach USD XX billion by 2025.

Global Managed VPN Market valued approximately USD 11.0 billion in 2017 is anticipated to grow with a healthy growth rate of more than 13.5% over the forecast period 2018-2025. The Managed VPN Market is continuously growing in the global scenario at significant pace. Managed VPN services enable users to manage and monitor their organization's network and provide a complete view of the network. Service providers help enterprises manage the end points of the network and notify users whenever a threat is detected. Moreover, enterprises can access a portal where all the activities of the network, such as performance reporting, network health monitoring, service management, and SLA management are reported, which makes management of the network easier. Growing volume of data and increasing need for IT resources in order to manage this data and decreasing the cost of managing VPN infrastructure are the substantial driving factors of the market across the globe. Moreover, increasing emphasis on business expansion some factors likely to create lucrative opportunities in the market over the upcoming years. Managed VPN offer various benefits such as it increases productivity, it leads single point of administration, it reduce the volume of IT help desk calls, it is cost effective, it easily work in unison with infrastructural elements and so on. These benefits are also boosting the demand of

Managed VPN across the world. However, high expenses associated with the implementation and shortage of skilled professionals are the restraining factors of the market during the forecast period.

The regional analysis of Global Managed VPN Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share due to rising technological advancements, increasing adoption of Managed VPN and increasing R&D investments in the region. Further, Europe is estimated to grow at stable rate in the global Managed VPN market over the upcoming years. Also, Asia-Pacific anticipated to exhibit higher growth rate / CAGR over the forecast period 2018-2025 owing to business are shifting towards managed services for long-term and short-term strategic consideration in the region.
