## **Abstracts**

Global Marine Insurance Market is valued approximately USD 6.9 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 4.00 % over the forecast period 2020-2027. Marine Insurance becomes mandatory when heavy imports and exports are considered through waterways. Also, the Marine Insurance benefits compensation of marines, cargo, terminals, boats, goods, injuries and other damages that are caused during within the water bodies. Further, the government imposition of Marine Insurance in many countries due to increase in trade across the countries led the adoption of Marine Insurance across the forecast period. For Instance: Indian government in 2020 announced INR 20,000 crore for marine development. Due to COVID-19 Pandemic, almost all the trades across the globe are standstill, this has affected the market growth. Lockdown in many countries hampered growth in the market. Companies plan to expand in the marine insurance market looking over to increase in trade across the world. For Instance: Tokyo Marine Holdings, Inc. acquired Thailand based Safety Insurance Public Company Limited in 2020 to accelerate the growth in the region, expand presence and promote marine trades. However, the premium to be paid by the company for the policy is the only restraining factor which impedes the growth of the market over the forecast period of 2020-2027.

The regional analysis of global Marine Insurance market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the

World. Europe is the leading/significant region across the world being surrounded by waterbodies and promotes marine trades. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2027 decreasing the dominance of Europe. Factors such as rise in awareness of marine trade, technological development and improvement in marine infrastructure would create lucrative growth prospects for the Marine Insurance market across Asia-Pacific region.
