Abstracts

Global Marine Seats Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2029. Marine Seats are mounted over or under the deck of the boat such as in captain seats, passenger seats, crew seats, and general seats. These are used in commercial vessels military crafts, workboats, super yachts, trawlers, and so on. The Marine seat market is expanding because of factors such as rising defense activities and fishing & growing seaborne trade.

According to the Our World Data in 2021, fish farming is rising rapidly during the last decade. Around 200 million tons of fishes and seafood are produced every year globally. China is projected to be the world's largest fish-producing country which produced more than around 60 million tons in 2017. Whereas rising defense spendings by various governments across the world and growing cruise travel globally are the factors that create lucrative opportunities for the market in the forecast period. However, the impact of new product development hampers the market growth in the forecast period.

The key regions considered for the Global Marine Seats Market study includes Asia Pacific, North America, Europe, Latin America, and the Rest of the World. Europe dominated the market in terms of revenue, owing to the rising passenger travel by cruise, advancements and innovations towards marine seats and the growing number of market players and so on. Also Europe is projected to rise with the fastest growth in

terms of CAGR owing to the factors such as rising government depending on defence activities.
