## **Abstracts**

Global Military Navigation Market to reach USD 13.4 billion by 2025.

Global Military Navigation Market valued approximately USD 8.1 billion in 2017 is anticipated to grow with a healthy growth rate of more than 6.50% over the forecast period 2017-2025.

Military forces worldwide are focused on the integration of navigation equipment with aircraft, ships, unmanned systems, missiles, and rockets, which is expected to drive the military navigation market. The decline in the procurement of defense equipment due to limited defense funding is acting as a key restraint to the growth of the military navigation market. Based on platform, the military navigation market has been segmented into aviation, ammunition, marine, ground, space, and unmanned vehicle. Increasing threats, advancements in technology, and futuristic conflicts have increased the need for navigation products in unmanned aircraft and defense aircraft, among other platforms. Based on application, the military navigation market has been segmented into command & control (C2); intelligence, surveillance & reconnaissance (ISR); combat & security; search & rescue (SAR); and targeting & guidance. ISR systems are designed to process specialized communications and navigation protocols from tactical and national intelligence systems. They provide access to mission critical data without clogging tactical communications networks and dramatically increase situational awareness for operators. Based on component, the market has been segmented into hardware, software, and service. The service segment is expected to witness the

highest growth among all due to the upgradation and overhaul services for old fleets of various defense organizations.

The regional analysis of Global Military Navigation Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America, Europe, Asia Pacific, and Rest of the World have been considered in the regional analysis of the military navigation market. Europe is estimated to lead the military navigation market in 2018
