Abstracts

Global Military Rifle Market is valued at approximately USD XX billion in 2020 and is anticipated to grow with a healthy growth rate of more than 4.00 % over the forecast period 2021-2027. Military rifle is a rifle that the military issues to regular infantry. In modern militaries, this is typically a versatile and rugged battle rifle, assault rifle, or carbine suitable for use in nearly all environments. Increasing defence spending, security threats have led to the adoption of Military Rifles across the forecast period. For Instance: As per Stockholm International Peace Research Institute (SIPRI), the total global military expenditure rose to \$1981 billion last year, an increase of 2.6 per cent in real terms from 2019. Also, with the increasing terrorist activities, the adoption & demand for Military Rifles is likely to increase the market growth during the forecast period. However, high manufacturing costs impede the growth of the market over the forecast period of 2021-2027.

Global Military Rifle Market is segmented on the basis of geographical region as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading region across the world in terms of market share owing to the technological advancements and presence of major defence equipment industries. Whereas, Asia-Pacific is also anticipated to exhibit the highest growth rate over the forecast period 2021-2027. Factors such as rising military budget, constant threats between the nations would create profitable growth prospects for the Military Rifle Market across Asia-Pacific

region.
