Abstracts

Global Mosquito Repellent Candles Market is valued at approximately USD 30 billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2021-2027. Mosquito Repellent Candles are hand-poured and made with paraffin wax. They also have cotton wicks for long-lasting burning time. The non-toxic citronella candles will keep all annoying bugs and insects away so you can stay protected from bug bites. Threat towards spreading epidemics and endemics such as dengue fever, growing demand for mosquito repellents has led to the adoption of Mosquito Repellent Candles across the forecast period. For Instance: Malaria is a parasitic infection transmitted by Anopheline mosquitoes. It causes an estimated 219 million cases globally and results in more than 400,000 deaths every year. Most of the deaths occur in children under the age of 5 years. Dengue is the most prevalent viral infection transmitted by Aedes mosquitoes. More than 3.9 billion people in over 129 countries are at risk of contracting dengue, with an estimated 96 million symptomatic cases and an estimated 40,000 deaths every year. Also, with the increasing demand for new and innovative products, the adoption & demand for Mosquito Repellent Candles is likely to increase the market growth during the forecast period. However, availability of raw materials impedes the growth of the market over the forecast period of 2021-2027.

The key regions considered for the global Mosquito Repellent Candles market study include Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading region across the world in terms of market share owing to most activities held in open, including dinners and celebrations. Whereas, Asia- Pacific is also

anticipated to exhibit the highest growth rate over the forecast period 2021-2027. Factors such as rising population, densely populated areas would create lucrative growth prospects for the Mosquito Repellent Candles market across Asia Pacific region.
