Abstracts

Global Move To Earn Fitness Apps Market is valued at approximately USD 319.7 million in 2021 and is anticipated to grow with a healthy growth rate of more than 17.8% over the forecast period 2022-2029. The GPS, step counters, and other sensors on the player's mobile device are used by move-to-earn cryptocurrency programmed to track their activities and automatically reward them for being active. Like P2E games, some M2E games are free to play, while others demand that you purchase an NFT before you may play. The Move To Earn Fitness Apps market is expanding because of factors such as rising adoption of smartphones, increasing expenditure in the healthcare sector and rising adoption of wireless devices.

As per Statista in year 2020 the total sales of smartphones across the world stood at 1351.84 million units which increased to 1433.86 million units in year 2021. This indicated the rising adoption of smartphones which is favoring the growth of market. Further, organizations are being inspired to create new models for exercise regimens by factors including rising healthcare costs, an increase in the incidence of obesity, and an increase in the number of athletes, which has a favorable effect on the market's expansion. The market is also expanding as a result of the deployment of 3G and 4G network infrastructure as well as 5G networks in areas with a stronger economy. However, the high cost of subscriptions stifles market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Move To Earn Fitness Apps Market study include Asia Pacific, North America, Europe, Latin America, and Rest of the World.

North America dominated the space in terms of revenue, owing to the rising adoption of smartphones, rising prevalence of lifestyle diseases, rising network coverage area, as well as rising technological advancements. Furthermore, Asia Pacific region is projected to have significant growth owing to presence of target population, rising adoption of smart phones in the region.
